## BACKUP ELECTRIC SUPPLY

### DESCRIPTION

Don Bosco College (Co-Ed), Yelagiri Hills has made adequate arrangements for backup electric supply to ensure uninterrupted academic and administrative functioning during power outages. The institution is equipped with standby power generators to provide emergency power supply to essential facilities across the campus. The backup power system supports critical areas such as academic blocks, administrative offices, laboratories, library, hostels, computer centers, examination halls, and other essential services. The generators are maintained regularly and operated by trained personnel to ensure safety, efficiency, and reliability. Proper electrical safety measures, including control panels and protective devices, are in place to ensure smooth transition between grid power and backup supply. Periodic testing and maintenance of the backup systems are carried out to ensure readiness during emergencies. Thus, the institution ensures a dependable backup electric supply system, contributing to uninterrupted learning, safety, and smooth functioning of campus operations.
